FCC Mailroom

We are concerned that taking away this opportunity will hinder the availability of being able to hear the preaching of Gods word during sicknesses. This has been a very good way to encourage others by offering the number and they can also be able to hear good sound gosple singing and also Preaching.

DOCKET FILE COPY ORIGINAL

As a taxpayer, and a free conference calling client, I ask you to please reconsider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, millions of others and our businesses.

I am urging you to refrain from eliminating services that I and millions of other Americans use regularly.

Long-distance carriers will not be negatively affected, financially or otherwise, if free conference calling services are left alone. In fact, they stand to gain upwards of \$80 million.

However, if the FCC does decide to remove these services, I and millions of other American citizens and American businesses will be immediately and negatively affected. We will no longer be able to use these services for free and will instead be forced to pay for conferencing services provided by the long-distance carriers if we want to reach our non-profit organizations, our families, our churches, singing calls, news calls, prayer groups, support groups, board meetings, committee meetings, startups, schools, and global corporate communities and their families.

Widows and other lonely individuals are finding comfort in this type of free conference calling.

Do not take away my free conference calling services and further line the pockets of major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its rulemaking in WC Docket No. 18-155.

We would be grateful if you would
let us keep on using free conference
calling • Church services, news from all over every
evening ^{except Sunday} (having no radio or TV or don't get a newspaper)
and prayer requests we can take part in, and much
more we would miss - also family time once a week.
Thank You!

I have been blessed so many times by listening into conference calls especially church services, singing calls. And I know many others that have been blessed as well. If it would change that we will need to pay for these calls I would not be able to afford conference calls anymore. Would be greatly disappointed if I could not continue receiving the blessings from them. Please reconsider.

Dear FCC,

I AM WRITING CONCERNING CONFERENCE CALLING SERVICES FOR CHURCH SERVICES SINGING CALL CONFERENCE CALL NEWS CALLS PLEASE CONSIDER CONTRIBUTION OF THESE FREE CALLS WC DOCKET NUMBER 18-155 Thanks

As a taxpayer, and a free conference calling client, I ask you to please reconsider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, millions of others and our businesses.

I am urging you to refrain from eliminating services that I and millions of other Americans use regularly.

Long-distance carriers will not be negatively affected, financially or otherwise, if free conference calling services are left alone. In fact, they stand to gain upwards of \$80 million.

However, if the FCC does decide to remove these services, I and millions of other American citizens and American businesses will be immediately and negatively affected. We will no longer be able to use these services for free and will instead be forced to pay for conferencing services provided by the long-distance carriers if we want to reach our non-profit organizations, our families, our churches, singing calls, news calls, prayer groups, support groups, board meetings, committee meetings, startups, schools, and global corporate communities and their families.

Widows and other lonely individuals are finding comfort in this type of free conference calling.

Do not take away my free conference calling services and further line the pockets of major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its rulemaking in WC Docket No. 18-155.

Signed,

Your Name: John Z. Reiff

Re: Accelerating Wireline Broadband Deployment by Removing Barriers to Infrastructure Investment, WC Docket No. 17-84; Accelerating Wireless Broadband Deployment by Removing Barriers to Infrastructure Investment WT Docket No. 17-79

Dear Ms. Dortch:

I, on behalf of the Village of Whitehouse, Ohio, am writing to express our concerns about the Federal Communications Commission's proposed Declaratory Ruling and Third Report and Order regarding state and local governance of small cell wireless infrastructure deployment. The Village of Whitehouse is deeply concerned about the substantial loss of local Home Rule control we would experience if this proposal is approved. Local governments are responsible for protecting the health, safety and welfare of residents, and we believe we have the right to set parameters regarding the impact to the local aesthetics in our municipal rights-of-way. Furthermore, we believe the proposal would expose wireless infrastructure providers to unnecessary liability.

Many municipal leaders across the state worked tirelessly with representatives from the telecommunications industry to craft an agreed upon compromise between the telecom industry and municipalities. This compromise ensures the deployment of small cell wireless infrastructure throughout the state, meeting many of the needs of the telecommunications industry while allowing local governments to provide for the health, welfare and safety of their communities. These guidelines became Ohio law earlier this year via House Bill 478. This proposal would undo countless hours of negotiations and have the effect of compromising the important consensus both parties reached.

The negative impacts to Whitehouse would be far-reaching. We would face needless revenue loss as the proposal limits recurring fees for small cells in the rights-of-way, in addition to the cost of several new unfunded mandates. Furthermore, the proposed new collocation shot clock category is too extreme. When paired with the FCC's previous decision exempting small wireless facilities from federal historic and environmental review, this places an unreasonable burden on us to prevent historic preservation, environmental or safety harms to the community.

Additionally, the proposed definition "effective prohibition" would invite challenges to our long-standing rights-of-way requirements unless they meet a subjective and unclear set of guidelines. This framing and definition of effective prohibition opens us to the likelihood of more conflict and litigation over requirements for aesthetics, spacing and undergrounding.

Finally, we believe the proposed recurring fee structure is an unreasonable overreach that will harm local policy innovation. Ohio's local governments are striving to ensure affordable broadband access for every Ohioan, regardless of their income level or address. HB 478 allows Ohio's cities and villages to negotiate fair deals with wireless providers, which may exceed that number or provide additional benefits to the community. We believe these narrowly-dictated rates would negatively impact municipalities.

The Village of Whitehouse opposes this effort to restrict our authority and stymie our innovation while limiting the obligations providers have to our community. We urge you to oppose this declaratory ruling and report and order.

Respectfully,

Jordan D. Daugherty
Village Administrator
